NOV. 3095

THURSDAY, FEBRUARY 2, 1744

Yesterday arriv'd the Mails due from France and Holland.

Petersburgh, January 14.

ER Imperial Majesty returned hither on the 14th from Kottitz, a pleasant Seat belonging to the Great Princess of the Empire; and which formerly belonged to Field-Marshal Munich. The Baron de Newhaus, Ambassador from his Imperial Majesty of Germany, will have a Publick Audience next Week, his last Letters Credencial having given entire Satisfaction to the Court. The News last sent from hence, in relation to the Dispute between two Ministers from the same Court, has been contradicted in the strongest Terms; and yet it is more firmly believed than ever. The Account those Ministers have lately thought fit to give of the Matter, is very strange one, and not at all calculated to gain Belief. They admit, that the two Ministers differed; and they own (indeed because it is not to be concealed) that the Marquis de la Chetardie has his Hands cut; but they say, that after he came home, he was amusing himself with a Chemical Experiment, by which Heat is excited from the mixing two cold Liquors; and that going to feel the Phil with his Hands, the Fermentation broke it in that Instant, and cut him very severely. We expect very soon to see the grand Affair of the Marquis de Botta determined; her Imperial Majesty having declared, that she will expect no further Satisfaction, than that the said Marquis be dismissed from his Employments.

Stockholm, January 22. The Day before Yesterday the Seven Chiefs of the Dalecarlians, who have been imprisoned four Months, received Sentence of Death. Schedin, the Chief of them, who fired first, and who gave the Word of Command to Fire upon the King's Troops, is condemned to have his Hand cut off, then to be beheaded, and his Body exposed upon the Wheel; the other Six are to be beheaded, and their Bodies in like manner exposed. M. Wrangel, Major of the Regiment of Dalecarlians, who, instead of performing his Duty, encouraged the Mutineers to Fire, is condemned to suffer three Weeks Imprisonment on Bread and Water; and is afterwards to be transported to a Castle on the Frontiers of Norway, where he is to remain Prisoner for three Years.

Copenhagen, January 28. The King and Queen, accompanied by the Margrave of Brandenburg-Culmbach, and the Princess his Consort, have been to pass two Days in the Country, but are now returned hither. The Chamberlain de Bernsdorf set out on the 25th for Paris, where he is to reside with the Character of Envoy Extraordinary from his Majesty. We have this Moment Advice from Scania, that the Swedish Court, agreeable to the Promise of Count Tessin, had countermanded the Orders given to the Regiments there to hold themselves ready to march; as also, that a great Misunderstanding had risen between the Swedish Peasants and the Russian Troops quartered amongst them.

Naples, January 14. The Court has received Advice from Dresden, that, in virtue of a Treaty lately concluded between that Court and the Court of Vienna, a perfect Neutrality is stipulated for all his Neapolitan Majesty's Dominions, provided the same be religiously observed on his Side. Upon the Arrival of this Courier a great Council of State was immediately held, at the Rising of which, Expresses were dispatch'd to the Spanish Army, to the Court of Madrid, and to the Infant Don Philip. His Majesty still continues fixed in his Resolution to put his Territories in a good State of Defence, but at the same Time to adhere closely to his Neutrality. The Court conceals it as much as possible, but we are, notwithstanding, very well informed, that the Plague continues to rage in Sicily and Calabria.

Vienna, January 25. Count Esterhazy, our Minister at the Court of Dresden, is preparing to return thither, with the Ratification of the Treaty lately concluded with his Polish Majesty. Several Conferences have been held this Week, on the Plan of Military Operations formed by Veldt-Marshal Khevenhuller. The Prussian Minister, Count Dohna, had lately a Conference, which lasted two Hours, with our Ministers, in relation to the Affair of the Dictature; and, at the same Time, communicated the Resolutions taken by his Master, and other Princes of the Empire, in regard to that Affair.

Frankfort, February 2. The Emperor is again so much indisposed with the Gout, as to keep his Bed, but is otherwise in good Health and Spirits. He has

lately received very large Remittances, the best Part of which have been employed for the Service of the Army. M. Chavigny returned hither from Paris the Day before Yesterday, and was most graciously received by the Emperor. Field-Marshal Seckendorff having executed a Commission of great Importance at the Court of Dresden, will speedily set out from thence for that of Berlin. Yesterday arrived here the Baron de Bachsch, Envoy Extraordinary from the King of Denmark, who is said to be entrusted with an Affair of very great Importance. It is not apprehended, that the Dyet will come speedily to any Resolution on the Affair of the Dictature; neither has the Court found it practicable, to hinder the Queen of Hungary from raising Recruits in all the great Cities in the Empire, notwithstanding the Prohibition issued on that Head. There is still great Talk here of a secret Negotiation.

Extract from the Paris Alaman.

Paris, February 5. It is reported here, with the greatest Confidence, that the States of Holland have actually consented to a Neutrality; and that with Respect to the 20,000 Men which they are bound to furnish by Treaty to the Queen of Hungary, they will be employed only to garrison the strong Towns in the Austrian Netherlands. If this should come out to be true, the first good Consequence of it will be, that we shall have no Occasion to form any Corps of Troops between Dunkirk and Luxembourg.

The Independent Companies have received a general Order to march immediately, and join the Troops of the Emperor, which make, at present, about 25,000 Men; and when reinforced by the German Troops in the Pay of France, will amount to 34,000, exclusive of 13,000, with which his Highness of Hesse hath promised to furnish his Majesty.

They write from Brest, that an English Frigate and Fireship that were entering that Bay, had been forced out again to Sea.

The Squadrons at Brest and Toulon, which had Orders to put to Sea, have received Counter Orders.

Actions 1047.

Paris, February 7. The King has published an Edict, by which all the Cavalry in the Service are changed into Cuirassiers; and Officers of all Ranks, and even private Men, are forbid to do Duty without a Cuirass, unless they are so weak as not to be able to wear one.

His Majesty has declared, that, for the future, he will not suffer any Officer in the French Guards to quit the Service, without having very good Reasons for it.

They write from Toulon, that the Court of Spain had sent thither 40,000,000 of Reals in Specie, which amount to about 1,000,000 Sterling.

They write from Brest, that on the 30th of last Month a Fire had broke out there, which had done incredible Mischief, having burnt the Magazine filled with Rigging to the Ground; the Flames flying so high, as to be seen twelve Leagues off; the Loss is said to exceed 4,000,000; and we are also told, that when the Courier set out, the Fire was not totally extinguished.

Extract of a Letter from Marseilles, December 27.

We have just now sent away from this Citadel 1000 Quintals of Powder, and 12,000 more from the Cattle or Ish, all for the Service of the Toulon Squadron, every Ship of which is to be furnished with 60 Round. This, we imagine, must be a great Mortification to Admiral Mathews, who, as we are informed, had acquainted his Court, that our Magazines were totally unfurnished, and therefore not in a Condition to supply the Fleet. We are likewise told, that a Squadron of six Sail from Brest, have joined ten Spanish Men of War, and are cruising off Gibraltar, in order to hinder any Ships from thence joining that Admiral, whose Ships are said to be very foul.

His Majesty and the Dolphin are expected here next Sunday, in order to divert themselves at a Masquerade.

ACTS 1060.

## L O N D O N.

According to the last Advice from Italy, Prince Lobkowitz was again in Motion, the Arrival of the English Ships having cut off all Communication between the Spaniards and the Sea. Count de Gages, on the other hand, has sent away his Hospitals, and made other Dispositions for a speedy March.

We have certain Intelligence from Savoy, that the Spanish Troops there are again become very sickly, in so much that above an Hundred of those in the Hospitals die every Day; the rest that are in Health, have begun their March towards Provence; but move so slowly, that it is thought they will not be at the Place of Rendezvous before March.

They write from Genoa, that Admiral Mathews had sent Orders to the English Consul, to take up all English, Swedish, Danish and Dutch Vessels, and send them immediately to him to the Hiers; but with what View the People at Genoa were at a Loss to find out.

Her Hungarian Majesty has given Orders for admitting to all the Troops that henceforward enter in her Service, an Oath of Fidelity to the Duke Co-Regent, in the same Terms as that now taken to herself.

An Express which arrived at the Hague, on the 7th of February, brought Advice from Vienna, that on the 26th of last Month, about 11 at Night, died there, Lewis Andrew, Count de Khevenhuller-Aichelberg, Count de Frankenburg, Knight of the Order of the Golden Fleece, Privy-Councillor to her Majesty the Queen of Hungary, Field-Marshal of her Armies, and Vice-President of the Council of War, General and Commander in Chief of her Forces in Slavonia and Styria, Governor of the City of Vienna, &c. This unexpected Accident has spread the most universal Grief thro' the Court and City of Vienna; inasmuch as the Loss of this great Officer is thought of greater Consequence than that of a whole Campaign. He married, in the Year 1718, Philippina Maria Anna, Countess of Lemberg.

The Elizabeth, Fox, from Jamaica for Glasgow is put in Lisbon.

The John and Esther, Wallis, from Gottenburgh for London, is lost on the Coast of Norway.

The Charming Betty, Weston, from Newfoundland, is taken by a Spanish Privateer, and carried into Malaga, the 2d of January.

They write from Rochelle, of February 4. N. S. that a Ship was arrived there from Martinico, who, about 300 Leagues from Rochelle, spoke with 16 Sail of rich Spanish Ships from the West-Indies, supposed to be Admiral Torres from the Havana.

The Mercury, Phelps, from Falmouth for Naples, is taken by a Spanish Privateer, and is carried into Cadiz.

The Dolphin, Austin, and the Samuel and James, Gutteridge, from Newcastle for Lisbon, are both lost in a violent Gale of Wind, between Calcas and St. Julian's Castle, on the Coast of Portugal.

His Majesty's Sloop the Baltimore has taken, on the Coast of Portugal, a Spanish Privateer of six Carriage Guns, 14 Swivels, and 60 Men. The Privateer took the Baltimore for a Merchant Ship, so bore down upon her; but on finding her Mistake, struck at the first Shot.

Yesterday Capt. Felix Baker, Commander of the Stafford, bound for China, took his Leave of the Court of Directors of the India Company.

The same Day the Portobello, Capt. Fisher, and the Benjamin, Capt. Way, were taken into the said Company's Service.

The Hardwick, Capt. Hallett, bound for Bombay, &c. was arriv'd the 14th of October at the Cape. The Duke of Lorrain, who came from Batavia with the Severn, was likewise arriv'd there, and were both sail'd for St. Helena.

Last Saturday died at Norwich Mr. Edmund Gurney, an eminent Tradefman and Manufacturer, very much lamented.

On Tuesday Night two Watchmen belonging to the Custom-house, fell from off one of the Keys into the Thames, and were drown'd.

The Lord Chief Justice Lee, the Lord Chief Justice Willes, and Mr. Justice Chappell, do not go their respective Circuits, but will attend the Service of the House of Peers.

Yesterday Elizabeth Lock was committed to Wood-  
street Compter by Mr. Alderman Baker, for stealing a  
Piece of Copper, value 2 s. 6 d. the Property of Mr.  
Saxton, of Whitefriars, Distiller.

**To Persons of either Sex Afflicted with any Species of the PALSY, or other NERVOUS DECAYS.**

**NEVER were NERVOUS DISEASES,**  
PALSIES, and PARALYTICK DISORDERS so frequent as of late they have been, nor have the usual Remedies been found adequate to those pernicious Distempers: This occasioned a Physician, who employ'd his Thoughts much concerning them, to adapt a Medicine, a *Sovereign Elixir*, peculiar to, and effectual for, the Palsy, and all other nervous Complaints now reigning, which after he had experienced on vast Numbers of Persons of both Sexes, and always with surprising Success, even so as infallibly to cure by it the Palsy, and all Paralytick Effects and Nervous Disorders, he permitted it to be made publick for a general Good, that so those labouring under these miserable Afflictions, might know where to meet with a safe and most certain Cure, which it accomplishes in so short a Time, and with such Ease and Pleasure (a few Drops of it being a Dose, highly agreeable to the Palate, and comforting to the Stomach and Bowels) as is almost incredible to relate.  
But the taking one Bottle of it only, demonstrates its prodigious Efficacy to every one, and the Patients soon find all Numbness, Deadness, and Shaking, or Resolution of the Nerves, as well as all convulsive, cramp-like, or painful Contractions of them, vanish and return no more; and though these Diseases have been of many Years standing, and whether occasioned by long Illness, fast Living, hard drinking, or any other Cause; for it performs all that can be wish'd for in Nervous Cases, creates an Appetite, expels Wind, rectifies the Digestion, occasions laudable Chyle, attenuates the Blood and Juices, causes a free and regular Circulation of 'em thro' the Capillary Vessels, revives and increases the Spirits, warms, comforts, strengthens, and replenishes the Brain and whole Nervous System, hence the Sinews, Tendons, Ligaments, and all the enfeebled Parts are invigorated, and the Limbs restored to their pristine Steadiness and Strength, and the Palsy and all Paralytick Disorders and Nervous Decays suddenly cured by it, to the Admiration of the Patients themselves, and all about them.  
This sovereign and incomparable Elixir is permitted to be sold only at Mrs. Holt's, at the Cross-Keys and Star below the Royal Exchange in Cornhill, London, at 2s. 6d. a Bottle, with printed Directions at large.
